Boston, MA 02203-2211

19 April 1991

Dear Sharon:

RIDEM has reviewed the Draft Screening Site Inspection for Pontiac Enterprises LTD (TDD No. F1-8901-15 and Job No. \$375RI73I\$) and generated the following comments:

Page 1 Paragraph 4

Due to the site being unpermitted the reference to the site as a "sanitary landfill operation" seems inappropriate.

Page 1 Paragraph 5

Are there actually 38 buildings onsite? The site sketch shows only one building, please clarify.

Page 3 Paragraph 1

Auto fluff consists of non-metallic metal processing waste and not just the shredded automobile seats.

Please clarify, "shredded oil-field automobile components."

Page 6 Paragraph 4

It is stated that, "All the VOC's detected could be attributed to the industrial and household waste disposed of in the landfill area." However, on page three it is stated that the only known waste to be disposed at the site is auto fluff. Please clarify.

If you have any questions concerning this letter do not hesitate to call me at 401-277-2797.

Sincerely,

  
Timothy M. O'Connor, Senior Engineer  
Division of Air and Hazardous Materials
